FOR IMMEDIATE RELEASE

CRESTPOINT CEO KAL PATEL SERVES UP EXPERT ADVICE ON FOREIGN HOTEL INVESTMENTS

Patel serves as industry expert at world renowned Green Card Fund Annual Summit on how to build hotel investment opportunities to immigrants via the EB-5 immigrant investor visa; creating jobs for American workers

4th Annual Green Card Fund Summit - An Introduction to Hotel Investments

Cincinnati, OH (11/2/2015) – Crestpoint CEO Kal Patel shares his success story and vast knowledge and experience in hotel investments by serving as expert panelist at the world renowned Green Card Fund Summit last week in Scottsdale, Arizona to potential immigrants interested in bringing capital to America.

“It’s a win-win situation. The EB-5 visa is available to immigrants with enough capital to make investments in American industries, such as the hotel industry. This way, the immigrant is able to bring him or herself to America, along with their immediate families. And with their investment we are able to create jobs for American workers,” explains Patel, “It’s the American Dream turn to reality – and I want to help immigrants realize their full potential.”

Patel believes that a strong professional mentorship with such investors will help build success for all parties involved. His company Crestpoint’s philosophy of transparency, honesty and integrity is aligned with the Green Card Fund’s policy of planning conservatively in order to perform duly, justly and impressively. Green Card Fund is a NewGen Worldwide Company, a diversified real estate company headquartered in Phoenix, Arizona.

Crestpoint Companies is a fully integrated hospitality development, management, and investment firm headquartered in Mason, Ohio. We strive for leadership in each of our segments by building quality assets, exacting high standards of customer service, and focusing on returns for our investors and partners. We carry out our mission with a strong company culture of transparency, ownership of our actions, and accountability for our results.
